

Schools and Neighbourhood Renewal

In 2004 the Government Office for the East Midlands commissioned a project to develop an awareness of Local Strategic Partnerships and Neighbourhood Renewal among School Governors in areas that are eligible for support from the Neighbourhood Renewal Fund (NRF). The project was funded by the Neighbourhood Renewal Unit and carried out by Liz Cousins Associates.

What resulted was a set of leaflets written for meetings of school governors across the region. They reflect just a small selection of the excellent work through which schools and their partners are developing effective links with their communities in the region. The set of seven leaflets is now available to share with others who are working to build these relationships elsewhere.
